

## CAMPAIGN IN CALGARY OPENS

**Dr. Stewart Held Rousing Meeting  
Last Night—Got an Excellent  
Reception.**

Calgary, Sept. 23.—The opening meeting in the election campaign held last night in Haskin's Hall, East Calgary, in the interests of the candidature of Dr. Stewart, was in every way a great success. In spite of the very disagreeable weather, a large number of electors turned out to hear the political views of the campaign discussed. The meeting had throughout the swing of victory, and the spirit that prevailed among those present was a sufficient guarantee

The audience was fortunate in having as one of the speakers, Duncan McEwen, of Edmonton, whose rousing address to the students, of great interest and frequently applauded. Colonel Walker presided. Stanley L. Jones was the first speaker and delivered a very stirring address. In opening, he said that he was born in Minnesota, and that he was of his ways. He predicted that the first new railway to come to Calgary would

Marshall, of Edmonton, whose rousing address was listened to with great interest and frequently applauded. Colonel Walker presided. Stanley L. Jones was the first speaker and delivered a very stirring address. In

opening, he said that he was born a Conservative, but saw the error of his ways. He predicted that the first new railway to come to Calgary would be the G.T.P. If the government were returned to power, as he felt con-

pleted in two years, and the latter, as well as the Canadian Northern and the Great Northern, would be in Calgary.

**An Era of Prosperity.**

T. W. Quayle followed and gave a number of reasons why Calgary should elect Dr. Stewart. Calgary should have more railways, and the way to secure them is to return a surprise

one-railway town ever became a great city. Mr. McCarthy had never lifted one finger to secure more railways for this city, while Dr. Stewart stands pledged on the question of greater transportation facilities. The

Dr. Stewart was the next speaker, and in introducing him, the Chairman referred to him as "the next member for Calgary," a statement

reception from the audience. He had, he said, seen Calgary grow from a small place of 4,000 inhabitants to a city of over 20,000, and was proud of the honor of being a Calgary citizen. The development of the city had de-

had developed rapidly, its development had not been so rapid as it would have been had Mr. McCarthy done his duty. Mr. McCarthy has had his opportunity and has failed and now either Mr. Sherman or him-

would pester the government until more railways were secured for Calgary. If there was ever a time or a moment in the history of the Dominion when the Liberal party should be in power it is now. As Mr. Marshall

**The Baseless Scandals.**  
Duncan Marshall concluded the meeting with one of his characteristic

ed the baselessness of a number of the so-called scandals spread broadcast by the Conservative party. The Liberal party, he said, is willing to be judged by its past record and that also is the ground on which the Con-

Borden, are at the head of the Conservative party now as were in 1890. He asked the electors if they would exchange the men who were at the head of affairs for Foster, Fowler and Loughheed. They had their opportu-

rule 9,900,000 acres of land had been given to the settlers, while in the twelve years of Liberal rule over 37,300,000 acres had been given to the settlers. Mr. Marshall contrasted the labor legislation of the two parties.

Dr. Stewart was the next speaker, and in introducing him, the Chairman referred to him as "the next member for Calgary," a statement which was received with cheers. Dr. Stewart, on rising, received a rousing

small place of 4,000 inhabitants to a city of over 20,000, and was proud of the honor of being a Calgary citizen. The development of the city had depended on the immigration policy of the government. Although the city had developed rapidly, its development had not been so rapid as it would have been had Mr. McCarthy done his duty. Mr. McCarthy has

well should be given a chance. If selected he would guarantee that he would pester the government until more railways were secured for Calgary. If there was ever a time or a moment in the history of the Dominion when the Liberal party should be in power it is now. As Mr. Marshall was to follow, Dr. Stewart made his speech very brief to the audience.

**The Baseless Scandals.** Duncan Marshall concluded the meeting with one of his characteristic addresses in which he contrasted the policies of the two parties and showed the baselessness of a number of the so-called scandals spread broadcast by the Conservative party. The Liberal party, he said, is willing to be

servative party must be judged. The same men, with the exception of Mr. Borden, are at the head of the Conservative party now as were in 1898. He asked the electors if they would exchange the men who were at the head of affairs for Foster, Fowler and Lougheed. They had their opportunity for 18 years and had failed. In the eighteen years of Conservative

twelve years of Liberal rule over 37,000,000 acres had been given to the settlers. Mr. Marshall contrasted the labor legislation of the two parties. In this line, he said, the Liberal party had something to its credit, but the Conservative party had nothing. The Conservative party in 1866 appointed a labor commission

and expenses from the public treasury. The only practical result was the establishment of a bureau of labor statistics. When the Liberal party came into power they found that even the clothing for the militia was manufactured under the sweating system. The result of their investigation has been that a fair wage clause is inserted in every government contract.

The Minister of Labor whose duty it is to look after the labor conditions, and has also established a Labor Gazette for the purpose of giving accurate information in regard to labor in every part of the Dominion. They had also passed the Lemieux act, which has been the means of settling disputes between corporations and employees.

## BARK DRIVEN ASHORE WITH 11 MEN ON BOARD

The Star of Bengal, an American Vessel in Northern Waters, is Driven Ashore on Coronation Island in Gulf—Was Returning South With Canneries' Employees.

Seattle, Sept. 23.—Advises received from Alaska by the United States signal corps say 11 men, including nine white men, were drowned in the wreck of the American bark, Star of Bengal, on Coronation Island, west of the Prince of Wales archipelago. Twenty-seven of the vessel's crew and passengers were saved. The Star of Bengal belonged to the Alaska Packers' association and was on the way from Port Wrangle to San Francisco with a cargo of 45,000 cases of salmon. In addition to the crew, she carried 100 Chinese and Japanese who were employed in the canneries of the company, taken aboard at Port Wrangle. The Star of Bengal was towed to sea by two tugs, and was blown ashore on the west side of Coronation Island. The tugs were obliged to abandon her in order to save themselves.

**Men May be Safe.**—The merchants exchange received a dispatch today from Port Wrangle, Alaska, stating that the American bark, Star of Bengal, Captain Thompson, had been driven ashore and was a total wreck. The news was brought to Port Wrangle by the steamer Hattie Gage, a trader to the Alaskan fish cannery, which reported that the steamer Kyak was standing by the stranded ship to render whatever aid was possible. A telegram has been sent to Washington asking that the United States cable steamer Burnside, now in northern waters, be sent to the assistance of the Star of Bengal. Nothing is said in the message received here of the fate of the officers and crew of the wrecked bark, but the presumption is that they were still on board the vessel when the Hattie Gage left the scene. The Star of Bengal is an iron bark of 1,000 tons register, 282 feet long, with a 40-foot beam. She is one of the vessels of the salmon fleet belonging to the Alaska Packers' association, and called from this port on April 22. It is thought that she has on board a full cargo of salmon.

**No Chance to Land.**—Seattle, Sept. 23.—A cable to the Times from Juneau says: "The bark Star of Bengal, has 190 men aboard, of which 100 are Japanese and Chinese. The cable ship Burnside has gone to the relief but may not be able to reach the wrecked ship. Bad weather is prevailing. The Bengal is on the west side of Coronation Island and the crew has no chance to land. The vessel has a cargo of 45,000 cases of salmon. "The Bengal was being towed to sea by the tugs Kyak and Hattie Gage, and was blown ashore. The tugs were

drugged with her. The tugs were obliged to cut loose to save themselves.

"TORONTO A HARD PLACE."

Aged Scotchman Found His Welcome A Cold One.

Toronto, Sept. 23.—Worn out with the struggle for existence in a land where he had but little but hard work and poverty, even hunger, Mrs. Mary Mc Dermott, an old Scotchman, who was picked up on the street in an emaciated condition last Friday, died in the General Hospital yesterday afternoon. The old woman came to Canada from Edinburgh about a year ago, and apparently had not a relative or friend here.

Last Friday she was found lying on the road on West Adelaide street. It was thought at first that she was drunk, and she was removed to Court Street Police Station in the gutter. Mrs. Wheldon, the police matron, found, however, that the woman was seriously ill, and had been practically without food for several days. Brought to her, she was too hungry to touch the bread, but the two she gulped down with pitiful success, clanking the cup in both her trembling hands. While lying on one of the benches in the station she told the matron that she was coming to Canada a year ago she had made a living by washing and other heavy work. Up to about a month ago she had been working in the laundry of the Western Hospital, but about that time she was run down by a bicycle. Things went hard with her after that. Unable to do any kind of work, she had to peddle shoe boxes, making scarcely enough to provide her with food. Then she became ill, and being unable to pay her board, was, according to her story, turned out of the street. She wandered about sleeping in the open air for several nights, until finally she collapsed.

When asked why she had not gone to an hospital, the old woman said she had gone up to the City Hall several times, but she did not know her way about, and no one would show her where to go. "Toronto," an awful hard place," she said tearfully.

The organist in charge at the station decided to have her removed to the General Hospital. There it was found that she was suffering from peritonitis, and this morning her condition was such that the surgeon decided that an operation was necessary. The old woman when told of this news, she said: "I'd rather die," she said. The operation was not performed, and death came a few hours later. An anti-gas will be held upon the day this morning.

Ticking or dry coughs will quickly loosen when using Dr. Shop's Cough Remedy. And it is so thoroughly harmless that Dr. Shop tells mothers to use nothing else even for very young babies. The wholesome green leaves and tender stems of a long healing, sometimes shrub give the curative properties to Dr. Shop's Cough Remedy. It cures the cough, and heals the sensitive bronchial tubes of 45,000 cases of salmon. Nothing harsh used to injure or oppress. Demand Dr. Shop's. Accept no other, sold by all dealers.

# PEMBINA TOWNSITE

Today there is placed on the market the premier real estate investment possibly of 1908. This is no ordinary real estate opportunity; it is extraordinary.

Pembina is a city in embryo.

At the point where the Grand Trunk Pacific Railway crosses the Pembina river, 65 miles west of Edmonton, there must be a city. The man with his ear to the ground knows this. It is inevitable.

The G. T. P. will this year lay steel to the Pembina river, and for a year at least from the moment the steel reaches there Pembina will be the terminus of the railway. This is due to the fact that it will be fully twelve months before the railway bridge, which is to be the highest on the G. T. P. system, can be completed.

But Pembina is by no means dependent upon the railway for its development. It has the site, and the district behind it to make it a big city.

Over 1500 settlers have taken up land within a radius of thirty miles of the townsite.

The timber on the river is the equal of any in Alberta.

Over 20,000 acres of coal rights have been reserved in the vicinity and the development of these mines will open with the coming of the railway.

An illimitable quantity of sand stone, equal to the Calgary grade, is lying along the river bank awaiting development.

On top of these is the paramount fact that the district is one of the finest for mixed farming in Alberta.

The lots in the townsite are offered at from \$50 to \$125 on easy terms.

The early bird catches the worm.

Sit down and figure out this proposition. It cannot but commend itself. It is bona fide. What has been said of this investment possibility is not the ultra optimism of some vapid and irresponsible realty agent. It is the truth, the whole truth, and nothing but the truth.

Confirm for your own satisfaction the statements made, then consult

## THE ANGLICAN FAVOR ORGANIC CHURCH UNION

General Synod Receives Report from Church Union Committee Recommending the Promulgation of the Movement for Union of the Anglican and Roman Catholic Churches.

Ottawa, Sept. 23.—The first business of the general Anglican synod was the opening sitting this afternoon was the election of officers. The Rev. Dr. J. H. King, of Kingston, elected Moderator. The Rev. Dr. J. H. King, of Kingston, elected Moderator. The Rev. Dr. J. H. King, of Kingston, elected Moderator.

The new president, after expressing his thanks to the chair, made a statement of the work of the Anglican synod in the past year. He stated that the synod had been very busy in the past year, and that it had accomplished much work. He then turned to the report of the church union committee, which recommended the promulgation of the movement for union of the Anglican and Roman Catholic churches.

The committee's report was received with much interest. The Rev. Dr. J. H. King, in his report, stated that the committee had held many meetings and had received many suggestions from the clergy and laity. He stated that the committee had decided to recommend the promulgation of the movement for union of the Anglican and Roman Catholic churches.

## SPORTING NEWS

## BASEBALL.

**PITTSBURGH BASEBALL.**  
Chicago, Ill., New York's desperate struggle for the lead in the National League pennant race ended today in one of the hottest runs in the history of the game. New York, after winning the game on a clean drive in the ninth inning, was robbed of it by a wild blunder by Merkle, who, on being forced from first, forgot to go to second line on a base hit, and was forced out. A great crowd of fourteen thousand swarmed the field in one of the wildest runs that ever took place at a ball field. O'Day and Knickerbocker, who were dragged and pounded until they escaped to the dressing room. Then the maddened mob swarmed upon Chance and his players. At the end of the inning the police scattered the crowd, and saved the Chicago players, who escaped with only bruises and torn uniforms. Knickerbocker declined to make any decision, but O'Day, who had followed the play down the field, declared Merkle was out, and that McCormick's run, which had seemingly won the game for New York, could not count. The score reverted to a tie, and it was impossible then to go on with the game; two games must be played tomorrow to clear successful. The teams have struggled before for eight innings, and the score was one to one when the ninth came. Chicago was marked in their ball. In New York's half two were out with McCormick on first when Merkle singled, putting McCormick on third. Hittwell singled to center, and McCormick came home, but Merkle failed to go to second.

## FOOTBALL.

**ATHLETIC FOOTBALL LEAGUE.**  
Calgary, Sept. 21.—The formation of a Calgary intermediate association football league is now in progress, the trophy to be a suitable cup, and schedule to commence on or after Sept. 24. A meeting of one delegate from each club will be held on Saturday, Sept. 26, to arrange a schedule and rules. It is hoped that the Calgary intermediate teams available will respond and the secretary or manager of any team desiring to compete for the league is requested to communicate by letter or in person with R. J. Clegg, Normal school, not later than Friday, Sept. 25.

## THE RING.

**BATTILING NELSON IS WEALTHY.**  
Besides being the greatest lightweight in the world, Nelson has several other distinctions that stamp him as a remarkable man. He scored the quickest knock-out record against Billy Rose at Bill McFarlane's club in Harvey, Ill., when he beat his man in two rounds. He has had less than three draws; he has especially for him, one for the fight with Horrell at Butte, one for the fight with Cullen and one for the fight with Kilduff at Butte. The latter contest, incidentally drew the largest gate on record, \$50,713 being taken in at the door.

During his career on the stage between fights, Nelson drew more money than any other pugilist who ever lived. The fact is, in all of his many contests Nelson never has had a challenger who has pointed at him, though he was offered one thousand dollars in this day of the year, Independence day in the United States.

Nelson is the wealthiest boxer in the world. He gave taxes in Illinois, Ohio, California, Nevada and New Mexico. He is a good business man and has always looked after his affairs to the best advantage and never has been known to be on a financial deficit.

The champion is a man of exemplary habits. He has never tasted liquor or been in any form. He is the only champion who ever gave the man he defeated

a second chance immediately following the fight in which he won the championship. Even at the present time Nelson alleges to be so robust when the late George Sims gave the decision against him on a fight at Goldenrod, when he fought Glasgow twice over. He says that a year ago he weighed 160 lbs. and tried to show the world that he was master of the back champion and at the first opportunity he proved his case and gained the "light" weight title by scoring a decisive victory over the late fighter who was the terror of those all for six years.

**MURKIN TO MEET HANSON.**  
San Francisco, Sept. 24.—Orrin Moran, the Radcliffe featherweight, has been matched with Eddie Hanson to fight 21 rounds on the night of Sept. 26. Hanson will take the place of Freddie Welsh, the new arrangement, having been made by the promoter of the club.

The men are to weigh in at 133 pounds or less on the afternoon of the contest which means that Moran must go out of the club.

**JOHNSON IS PREPARING.**  
London, Sept. 24.—Jack Johnson, the American negro pugilist, announces that a match between himself and Tommy Burns has been positively fixed at last. An Australian candidate will guarantee \$25,000 for a fight to a finish between the two men. According to the terms, the winner will take 40 per cent. and the loser 40 per cent. of this amount.

The fight is likely to take place at the end of November either at Sydney or Melbourne. Johnson and his manager, managed by Fitzpatrick, will probably sail from London next Friday.

**LACROSSE.**  
Vancouver, Sept. 22.—Mr. A. Turnbull, the veteran Canadian lacrosse player, and Mr. Geo. Beattie, of the New Westminster team, leave this afternoon for Montreal to join the Canadian Olympic team.

**AN INTERNATIONAL ISSUE.**  
New York, Sept. 24.—Speaking of the controversy in the Olympic games over Lordship, the New York Times in a recent issue, says: While it has been generally thought that there would be nothing more heard or done in the case of Tom Longboat, the Indian, who was allowed to compete in the Marathon race at the Olympic games in London, notwithstanding the fact that he had been declared a professional by the governing organization of amateur athletics in the United States, it became known yesterday that the officials of the Amateur Athletic Union of the United States, after seriously considering the matter of severing all relations with the Amateur Athletic Union of Great Britain, who was chiefly responsible for Longboat's appearance in that race, and if not present feelings of some of the A.A.U. members do not undergo a change by the time the board of governors has its annual meeting in November, all athletic relations between the two countries will be discontinued.

The controversy at the Olympic games have nothing to do with his latest move in the famous race at Alton, J. Hayes won being the side game.

**OVER SIXTY MILES PER HOUR.**  
An English paper says: A. E. Wille, the little Putney cyclist, has been quartered at Marbury for the race work with a view of beating Paul Giguere's long-standing world's long record of 50 miles, 30 yards. Paced by Burton, who drove a high-powered motor-cycle, Wille succeeded in covering the marvellous distance of 60 miles 24 yards in the 60 minutes. He is thus the first cyclist to cover 60 miles in the hour.

Dr. Shop's Bismuthic Bismuth and see how quickly pain was dispelled. Bismuth's power to reach the real disease, inflammation, is in the skin. It's deep down, it's constitutional. Getting rid of the pain is after all, what counts. That is why Dr. Shop's Bismuthic Bismuth goes so word of mouth from one to another. And herein lies the popularity of this remedy. It is winning friends everywhere. Tablets or Liquid. Sold by all druggists.
